

Context & Deprivation

Index of Multiple Deprivation 2015

The Department of Communities and Local Government (DCLG) has released the English Indices of Deprivation 2015 (ID2015), the indices are combined into the composite Index of Multiple Deprivation 2015 (IMD 2015). The IMD measures relative deprivation across small LSOAs.

Deprivation here describes unmet needs caused by a lack of resources, and is measured using 38 indicators grouped into seven domains. The domains can be used individually to identify areas that are deprived in terms of specific issues, such as health, or combined using a weighting system to calculate the Index of Multiple Deprivation 2015 (IMD 2015), which can in turn be used to rank every LSOA in England according to its relative level of deprivation. Note that higher IMD scores indicate greater relative deprivation, with the most deprived LSOA nationally given a ranking of 1 and the least deprived a ranking of 32,844.

Further information in the IMD can be found here: [Cambridgeshire Summary Report IMD 2015.pdf](#) | [Cambridgeshire Insight](#)

LSOA Ward Name	IMD Score	NATIONAL Rank of IMD (where 1 is most deprived and 32,844 the least deprived)	COUNTY RANK OF IMD NATIONAL RANK (where 1 is most deprived and 375 the least deprived)

Child Poverty 2013

Child Poverty is defined as the proportion of children living in families in receipt of out of work benefits or tax credits where their reported income is less than 60 per cent median income.

The proportion of children in poverty is calculated as the number of children in families in receipt of either out of work benefits, or tax credits where their reported income is less than 60 per cent median income divided by the total number of children in the area.

LSOA Ward Name	% children living in low income families 2013	COUNTY RANK of Child Poverty (where 1 is most deprived and 375 the least deprived)
Elm and Christchurch 8066	24.9	27
Elm and Christchurch 8067	15.6	92
Elm and Christchurch 8068	26.3	20
Parson Drove and Wisbech St Mary 8090	30.7	7
Parson Drove and Wisbech St Mary 8091	23.5	33

Free School Meals by Division of pupil residence, January 2015

All children who are at school; and are under 19 at the start of the academic year and are claiming or have parents who are claiming any of the following are entitled to Free School Meals (FSM)

- Income support or
- Income Based Job Seekers Allowance or
- Income-related employment and support allowance or
- Support under part VI of the Immigration & Asylum Act 1999 or
- Child Tax Credit but who are not entitled to working tax credit and whose annual income (as assessed by HM Revenue & Customs) does not exceed £16,190 or
- Guarantee element of state pension credit

Further information on Free School meals is available here:

http://www.cambridgeshire.gov.uk/info/20059/schools_and_learning/294/help_with_school_and_learning_costs/2

Not all pupils in families with income deprivation claim their entitlement to a free school meal, so that FSM numbers may not accurately represent the level of deprivation, particularly at secondary school level.

Disadvantaged pupils (pupil premium) by Division of pupil residence January 2015

The pupil premium is additional funding for publically funded schools in England to raise the attainment of disadvantaged pupils and close the gap between them and their peers.

Pupil premium funding is available to:

- Local authority maintained schools, including special schools and pupil referral units
- Voluntary-sector alternative provision, with local authority agreement
- Special schools not maintained by the local authority
- Academies and free schools, including special and alternative provision academies

Pupils are eligible for the pupil premium if:

- They have been eligible for Free School Meals (FSM) in any of the previous six years as well as those first known to be eligible in the January school census. (Ever 6 FSM). The criteria for FSM eligibility, as above, are different to the universal provision of meals to infant pupils.
- They are or have been in the care of an English or Welsh local authority care for one day or more or who have left local authority care following adoption, a special guardianship order, a child arrangements order or a residence order
- Recorded in the school census as being the child of Service personnel at the time of the census or at any point in the previous 4 years. (Ever 5 Service Children).

Key Ethnic groups by Division of pupil residence, January 2015

In January 2015 approximately 11.5% of pupils in Cambridgeshire schools were from a minority ethnic community, below the national rate. Patterns vary across the county, and the school census showed that all Divisions had at least some minority ethnic children resident. Research has shown that there are likely to be considerable pressures on children from minority ethnic communities when they attend mainly white schools and may be the only non-white child in the class

Key Ethnic groups by Division of pupil residence, January 2015

Special Educational Needs and Disability (SEND)

Children have special educational needs if they have a learning difficulty which calls for special educational provision to be made for them. Up until 1st September 2014, when a school identified a child with SEND they provided support that was additional to or different from that provided as part of the school's usual differentiated curriculum, this was known as **School Action**. If the school believed that help from external services was needed in meeting the child's SEN then this was known as **School Action Plus**. If the child needed further help or did not make the expected progress, the school was able to ask the LA to make a statutory assessment of the child's SEN. This was a very detailed look at what the child could do, and the special support he or she needed to help them learn. The LA then decided whether the child needed a **Statement of Special Educational Needs**, which was a legal document describing the child's special educational needs, and the extra help he or she needed. In 2014 The Children and Families Act introduced changes to the ways children and young people with SEND are supported. The three categories of need were replaced by two new categories, **SEN Support** and **Education, Health and Care Plans (EHCP)**. SEN support replaces school action and school action plus, this support is still offered by schools to assist children who need additional help or provisions that is different to the usual curriculum. A new assessment process which can result in an EHCP replaces Statements of Special Educational Needs and Learning Disability Assessments. The EHC Plan is for children and young people aged 0 – 25. It focuses on identifying individual outcomes and puts children, young people and their families at the centre of the assessment, planning and review process. EHCPs will have the same protection in law as a Statement of SEN. The LA and schools have 3 years to convert children from the three categories of need to the two new categories.

Further information on SEND is available here: [Special educational needs & disabilities \(Local offer\) - Cambridgeshire County Council](#)

Patterns of SEND vary across the county and can reflect management response as much as incidence of need. (Note that these figures include children taught in both mainstream and special schools in Cambridgeshire, but does not include those attending independent schools or schools outside the county).

SEND by Division of pupil residence January 2015

Educational Attainment

Early Years Foundation Stage Profile

The Foundation Stage Profile (FSP) provides a summary of a child's development at the end of the Reception Year, based on professional observations and assessments made against 17 National Early Learning Goals (ELG). The profile data is used to:

- Inform parents about their child's development against the early learning goals and characteristics of learning
- Support a smooth transition to Key Stage 1, and
- Help year 1 teachers plan an effective, responsive and appropriate curriculum to meet the needs of all children.

Children are described as having reached a Good Level of Development (GLD) if they have achieved at least the expected level in:

- The ELGs in the prime areas of learning (personal, social and emotional development; physical development; and communication and language) and
- The ELGs in the specific areas of mathematics and literacy

Pupils achieving a good level of development in 2015

	No. pupils assessed for FSP 2015	No. achieving a good level of overall development	% achieving good level of development

Key Stage 2

Key Stage 2 outcomes provide a summary of a child's attainment at the end of their Primary Phase of education. In 2015, Children were expected to achieve level 4 or above in national Reading and Maths tests and to achieve level 4 or above in Writing Teacher Assessment (TA). Note that 2015 was the last year in which Key Stage 2 performance will be assessed using levels.

Pupils achieving L4+ in reading, writing TA and Maths in 2015

	No. eligible for KS2 2015	No. achieving L4+ in reading, writing, TA & Maths	% achieving L4+ in reading, writing, TA & Maths

Children's Social Care

A child is a **Child in Need** if they are unlikely to achieve or maintain a reasonable standard of health or development without the provision of social care services by a local authority; their health or development is likely to be significantly impaired without the provision of such services; or they are disabled

Child protection refers to the activity that is undertaken to protect specific children who are suffering, or are likely to suffer, significant harm. Where a Child Protection Conference determines that a child is at continuing risk of significant harm, a multi-agency **Child Protection Plan** is formulated to protect the child. A core group of professionals, including the Lead Social Worker, are responsible for keeping the Child Protection Plan up to date and co-ordinating inter-agency activities within it.

'**Looked After Children**' are children and young people who are looked after by their Local Authority - children who are often described as 'in care'. They are children who Social Care Services are providing with care and accommodation. Mostly they will be cared for by Foster Carers but some looked after children might stay in a children's home or boarding school, or with friends or relatives. In some circumstances, looked after children can stay with their parents. Children come into our care by two main routes – because their parents have asked for this help or because the child is at risk of significant harm

Further information on Children's Social Care in Cambridgeshire is available here:

http://www.cambridgeshire.gov.uk/info/20107/childrens_social_care

Young People in Education Employment or Training (EET)

NEET stands for Not in Education, Employment or Training. It is generally used for young people rather than the adult population. The number of young people NEET is of concern because being NEET is an indicator of underlying problems in a young person's life and of future social exclusion. Young people are more likely to achieve economic wellbeing in their adult life if they are engaged in EET. There is also a focus on measuring those who are In Learning (education or work based learning) to increase participation in line with the raising the Participation Age agenda.

Together For Families

Together for Families (TFF) is the programme responsible for:

- Delivering the national Troubled Families initiative to turn around the lives of 2,820 families in Cambridgeshire between 2015-2020
- Embedding think family working across Cambridgeshire

Our aim is that:

By 2020, all agencies working with children, young people, adults and families in Cambridgeshire will be working in a think family approach.

What is Think Family?

Think Family means improving outcomes for children, young people and families with multiple needs by considering and understanding the needs of all family members and coordinating the support they receive from children's, young people's, adult's and family services in a single family plan coordinated by a Lead Professional.

The Together for Families Programme is Cambridgeshire's response to the national troubled families initiative to positively transform the lives of families with complex and enduring problems where often the cost to the public purse is significant.

Phase II has opened up the entry criteria significantly. Professionals are able to nominate Families for the Programme if they can provide evidence that the family has multiple needs that will benefit from a multi-agency, Think Family Approach and that 2 issues from the following 6 main criteria exist within the family unit.

1. Crime/Anti-social behaviour concerns
2. Children who need help
3. Education concerns
4. Risk of Financial exclusion
5. Domestic violence and abuse issues
6. Health concerns

Adult Social Care

Adult Social Care commissions and provides a range of services that are Cambridgeshire County Council's contribution to the health and overall well-being of adults and communities. These include:

Community-based services: those statutory social care services that help people remain independent and living at home. Examples include, home care, day care and self directed support.

Residential care: long-term care given to adults in a residential setting rather than their own home.

Nursing care: residential care supported by 24 hour professional nursing care.

Short term services: support provided to help delay or prevent people needing long term intensive and expensive care and support in the future. Examples include, daily living equipment, adaptations to their home and assistive technology and telecare.

Supported Carers: support provided to carers of people eligible for statutory social care services. Examples of carers support includes specific information and advice, carers grants, ongoing one to one support and activated emergency What If? plans.

Reablement Services: a short period of time service which enable people to gain or regain their independence.

More information on our Adult Social Care Services is available here: <http://www.cambridgeshire.gov.uk/social/>
